

ANNDREA DIONEDA

Manila, Philippines

work.dioneda@tutanota.de ♦ GitHub - iya5 ♦ LinkedIn - Anndrea Dioneda

OBJECTIVE

Self-motivated and self-sufficient student with an interest in applied mathematics, game development, web development, art, and graphics programming. My goal is to become a full-stack web developer, game developer, and technical artist in order to apply my interest and skills in the field of computer graphics and art towards my work.

EDUCATION

Bachelor of Science in Computer Science

August 2023 - May 2027

Lyceum of the Philippines University Cavite, Philippines.

Arts and Design - Specializing in Visual Arts

August 2021 - May 2023

Francisco E. Barzaga Integrated High School

PROJECTS

Hardware-accelerated renderer using OpenGL.

Worked as a contributor towards importing and rendering the models, ensuring they have the necessary requirements such as fixing OBJ models in blender, fixing the mesh topology, adding normals when one lacks it, et cetera.

Student Registration System using Python.

Created an interactive application for registering users, viewing their information, and managing them using Python and CTKinter. Showcases read-write functionality for storing and logging user data via .txt file.

Registration Website.

Created a full stack registration website that handles user logins, roles, and dynamic pages. Used RESTful APIs, and MariaDB for storing user information and accessing it through connections to serve pages to users.

COMPETENCIES

- Interested in art, game development, and computer graphics.
- Knowledgeable in version control systems such as Git, and GitHub.
- Experienced in tools such as Figma, Photoshop, and Clip Studio Paint.
- Programmed using Python, C, C++, Bash, Kotlin, Dart, HTML5, CSS, Tailwind, and PHP.
- Familiar with build automation tools such as Make and CMake.
- Familiar with Blender, Unreal Engine 5, and Shader programming.
- Familiar with RESTful APIs.
- Comfortable using linux.
